## **PINE BRANCH COAL DONATES LAND TO PERRY COUNTY SANITATION DISTRICT**

HAZARD, KY. Chairman of the Perry County Sanitation District, Jim Sidwell, announced that Pine Branch Coal Sales has donated 3.51 acres of land to the District near Chavies, KY. The land will be used to construct a sewage treatment plant that will service the Chavies' community, as well as the entire Grapevine Creek Watershed.

"Pine Branch's gift is an outstanding example of their continued partnership with the community", stated Sidwell.

The plant, designed by Nesbitt Engineering, Inc., along with the initial phase of collection lines, could be under construction by late 2009.
